

**Course: Math Brush-Up Course Syllabus**

**Faculty: Boyao Zhang**

**Term: Fall**

**E-mail: boyao\_c321@hotmail.com**

## **Contents**

### **1 Linear Algebra**

#### **1.1 Basic Matrix Algebra**

#### **1.2 Eigenvalues and Eigenvectors**

#### **1.3 Diagonalization**

### **2 Topology**

#### **2.1 Metric Spaces**

#### **2.2 Open and Closed Sets**

#### **2.3 Boundedness and Compactness**

#### **2.4 Convex Sets**

### **3 Continuity**

#### **3.1 Continuity**

#### **3.2 The Weierstrass Theorem**

#### **3.3 Hemi-continuity**

#### **3.4 The Maximum Theorem**

## **4 Calculus**

### **4.1 Derivatives**

### **4.2 Differentiability**

### **4.3 Taylor's Formula**

### **4.4 Implicit Function Theorem**

### **4.5 Inverse Function Theorem**

### **4.6 Convexity and Concavity**

## **5 Optimization**

### **5.1 Convex Constraint Set**

### **5.2 The Lagrangian Problem**

### **5.3 The Kuhn-Tucker Problem**

### **5.4 The Envelope Theorem**
